

VELVET WAX

SPECIAL WAX VARNISH FOR WATERPROOFING AND PROTECTION

Provides durability and beauty

Description : Transparent varnish made of a special wax. Suitable for interior and exterior use. Especially resistant to outdoor temperature and humidity conditions

Usages: Used for the protective coating of absorbent surfaces, such as VELVET DECO decorative cement-based finishing screed, or surfaces painted with the lime paint BYZANTINO.
With this coating, the surfaces acquire water repellent properties

Advantages:

- Ready to use
- It increases the gloss of surfaces
- It is organic solvent-free
- It does not peel off

Packaging /distribution: Available in 1 lt bottles

Storage: Store the product in a shadowed place and avoid exposure to very high temperature or frost (optimum storing temperature: 5 °C to 35 °C). Maximum storage time in intact packaging: 12 months after production date

Fire behaviour : Not flammable

Safety : VOC class: "One –pack performance coatings - WB". VOC limit = 140 gr/lit. Max VOC of product ready to use: <20 gr/lit.

Consumption: 150 - 250 ml /m², depending on the absorbency and the smoothness of the surface.

Application mode:

- It is applied using a roller
- To maintain the protection of the surface, you need to repeat the coating every 2 years

We guarantee the quality of all our products, on the basis of their technical specifications/ technical data sheet. Such guarantee refers only to the products that we deliver for use and never to its application or final result, which largely depend on the experience and quality of work of each user and on the application conditions. The user is advised to test the product on a small scale, and if he is satisfied with the result, then to use the product on large scale in his project. This edition of technical data sheet automatically cancels any previous version
