

## STUCCO VENEZIANO

### Special aged slaked lime putty

#### DESCRIPTION

Special stucco for the decoration of interior surfaces and the creation of different styles /textures. It consists of natural mineral materials, marble powder, aged slaked lime and special additives which give excellent adhesion properties and workability.

#### APPLICATION FIELDS

The finish achieved is glossy, smooth and breathable, while not affected by fungi /mould. If it is additionally coated with special wax varnish WELVET WAX, it becomes waterproof and washable. The product comes in a white base, which can be coloured with the natural pigments MARMOLINE POWDER COLOUR

#### CHARACTERISTICS/ ADVANTAGES

- Ready to use
- Excellent aesthetic result
- Great workability
- Strong adhesion - no cracks
- Glossy finish (marble texture)

#### PRODUCT INFORMATION

**Packaging** Available in 800 gr plastic container

**Storage:** Store the product in a shadowed place and avoid exposure to very high temperature or frost (optimum storing temperature: +5°C - +35°C). Maximum storage time in intact packaging: 12 months after production date.

**Coverage:** Approximately 1 m<sup>2</sup> / kg

#### APPLICATION

- Wear protective gloves and eye protection-glasses.
- Stir the material well before use .
- In order to create the desirable colouring shades, add the natural pigment powders MARMOLINE POWDER COLOUR, making sure that they fully dissolve in the paste. It is recommended to mix the pigment powder with a small quantity of the paste, in a separate container, until the powder is fully dispersed and the colour is homogenized and then to incorporate the mixture in the rest of the product.
- In order to select the colouring shade you prefer, you should test the product on a small surface
- For the application use a stainless steel spatula with rounded edges.
- Apply a first layer and let it dry for at least 8 hours. Repeat for the second layer

- Apply the third layer, by putting small amounts of product on the tip of the spatula, and spread it while practicing proper pressure, to achieve the glossy final result.

## HEALTH, SAFETY & ENVIRONMENTAL PROTECTION

Detailed information and instructions regarding the safe management of the product and in matters of Health & Safety, are provided in the most recent Safety Data Sheet (SDS), copies of which are available on the company's website <https://marmoline.gr/> or upon request.

## LEGAL NOTICE

We guarantee the quality of all our products, based on their technical specifications, as described in this Technical Data Sheet. Such guarantee refers only to the products that we deliver for use and never to its application or final result, which largely depends on the experience and quality of work of each user and on the application conditions. The user is advised to test the product on a small scale, and if he is satisfied with the result, then to use the product on large scale in his project. The recommendations and implementation instructions must be considered by the user as indicative, and always with given that the product has been traded and traded and stored according to its instructions. As it is not possible to control the parameters/conditions of its application product in practice, no guarantee is provided for the final result of each application. Consequently, no legal liability of the Company can be established based on the information and instruction given in this Technical Data Sheet. The Company reserves the right to modify data listed in this Product Data Sheet, with no previous warning. Users must refer to the latest version of the product Technical Data Sheet.
