

MCL 200

Cleaner for unpolished marbles

DESCRIPTION

Very strong and condensed cleaner suitable for all unpolished marbles. It effectively cleans residues of cement - plasters - joint fillers from various works, thus becoming an indispensable tool for all users. Suitable for cleaning dirt caused from wear, stains from coffee, oils, rust, stains from watering of flower-pots, etc. Friendly to sensitive valuable marbles.

APPLICATION FIELDS

It is suitable for

- all types of unpolished white marble such as Dionyssos, Thassos, Veria, Kavala etc
- most types of unpolished light colored marbles
- cementitious marble and tile grouts
- surfaces of old mosaic, on both vertical and horizontal surfaces, indoors and outdoors..

In combination with waterproofing liquid, provides a long term protection.

Remarks: Due to the different nature of each material, it is advised to make a compatibility test, on a small section of the surface, prior to final application.

CHARACTERISTICS/ ADVANTAGES

- Instant and effective action
- Suitable for all types of unpolished marbles
- Revitalizes worn marbles
- Does not change the look of marbles
- Indoor and outdoor use
- Easy to apply

TECHNICAL CHARACTERISTICS

Form: Transparent liquid

Odour: Acidic

Density: 1 g/ml, 25°C

HEALTH, SAFETY & ENVIROMENTAL PROTECTION

Contains phosphoric acid. Detailed information and instructions regarding the safe management of the product and in matters of Health & Safety, are provided in the most recent Safety Data Sheet (SDS), copies of which are available on the company's website <https://marmoline.gr/> or upon request

APPLICATION INSTRUCTIONS

- MCL 200 is very strong and it is recommended to use, as a precaution, protective gloves and goggles.
- To avoid the possibility of corrosion, it is recommended to perform a trial application to a small surface of clean marble.
- Remove or cover sensitive surfaces and items.
- Spread MCL 200 undiluted on the surface and rub with a broom or harsh sponge for 3 - 5 minutes.
- Before the material dries, rinse the surface with clean water while rubbing with a broom.
- If there are persistent stains, you may repeat the process after 15 - 20 minutes.
- To clean simple stains, you may dilute by 20% with water.
- Not recommended for polished marbles.
- Consumption: Approx. 1 lt per 5 to 6 m²
- Application temperature: +5 °C to +35°C
